This edition of the U.S. Geological Survey (USGS) Minerals Yearbook discusses the performance of the worldwide minerals and materials industries during year 2013 and provides background information to assist in interpreting that performance. These annual reviews are designed to provide timely statistical data on mineral commodities in various countries. This volume covers data from Asia and the Pacific. Each report includes sections on government policies and programs, environmental issues, trade and production data, industry structure and ownership, commodity sector developments, infrastructure, and a summary outlook. Audience: Government employees and contractors, as well as businesses and employees, all working in mineral-related trades, especially with interests in statistics about mineral commodities overseas, will find this resource invaluable. Check out our Minerals & Metals publications here:

The Arab world's second-largest economy, and its largest population, Egypt has endured more than three years of political and economic turbulence which have slowed its performance, but its long-term fundamentals remain strong. Egypt has been through a turbulent time, but still manages to churn out headline growth higher than the Eurozone. Still, an economy that was growing at a rate of 7% has given way to a more modest GDP expansion of 2.2% in the 2011/12 fiscal year, following the ousting of Mubarak, while foreign direct investment fell by two-thirds over the same period. The figures are likely to remain subdued in the near term but there have been some improvements in cyclical performance, particularly with the country's capital markets, as 2012 saw Egypt's exchange grow by 51% year-on-year. More importantly, the country still benefits from significant competitive advantages, including a strong trade profile, a large private sector, a sizable manufacturing base and favourable demographics.

The Rainbow Nation benefits from an internationally competitive

Read Book Accounting Grade 12 November 2013 Exam Papers

private sector, which accounts for roughly 70% of GDP, and extremely competitive infrastructure; its utility sector, for example, produces just under half of the total power generated on the African continent. South Africa represents by far the most developed market in Africa, but there are still some structural challenges it is grappling with. Government strategies have set a target of increasing labour market participation from 54% in 2010 to 65% by 2030, bringing the number of workers in the formal sector to 25.3m people and lowering unemployment from 25% to 6%. While its fiscal space is narrow, long-term investments in infrastructure, education and health are expected to be key to attaining its growth potential. Recent years have seen both the public and private sectors look to strengthen regulatory frameworks in mining and industry - in some cases, like the automotive sector, with impressive results.

This key resource is often referred to as the "Green Book". Federal policymakers and program managers are continually seeking ways to better achieve agencies' missions and program results, in other words,

Read Book Accounting Grade 12 November 2013 Exam Papers

they are seeking ways to improve accountability. A key factor in helping achieve such outcomes and minimize operational problems is to implement appropriate internal control. Effective internal control also helps in managing change to cope with shifting environments and evolving demands and priorities. As programs change and as agencies strive to improve operational processes and implement new technological developments, management must continually assess and evaluate its internal control to assure that the control activities being used are effective and updated when necessary. The Federal Managers' Financial Integrity Act of 1982 (FMFIA) requires the General Accounting Office (GAO) to issue standards for internal control in government. The standards provide the overall framework for establishing and maintaining internal control and for identifying and addressing major performance and management challenges, and areas at greatest risk of fraud, waste, abuse and mismanagement. This report explores the Five Standards for Internal Control as identified by GAO for policymakers and program managers: - Control Environment - Risk Assessment - Control Activities - Information and Communications - Monitoring These standards apply to all aspects of an agency's operations: programmatic, financial, and compliance. However, they are not intended to limit or interfere with duly granted authority related to developing legislation, rule-making, or other discretionary policy-

Read Book Accounting Grade 12 November 2013 Exam Papers

making in an agency. These standards provide a general framework. In implementing these standards, management is responsible for developing the detailed policies, procedures, and practices to fit their agency's operations and to ensure that they are built into and an integral part of operations.
