College guides are a must for any teenager trying to choose the right school. Unfortunately, most guidebooks are vague, boring tomes written by administrators and journalists, instead of the real experts—the college students that actually go there. Students' Guide to Colleges is different. Entirely student-written and edited, this invaluable resource cuts through the cant with comprehensive listings of the vital statistics and requirements for America's top 100 schools accompanied by three totally honest, fresh, fun-to-read descriptions penned by attending undergrads from different walks of life. Want to know how big classes really are? How rigorous the academics get? Or how greek or granola, chill or up-tight, homogenous or diverse, gay or straight, a campus really is? Lively, irreverent, and insightful, the Students' Guide to Colleges is the only guidebook that offers multiple perspectives on each school and tells it like it is so that college applicants can make the best choice when deciding where they want to spend their college years. More than 30,000 students surveyed Preface by Chuck Hughes, former senior dean of admissions at Harvard University

“Refreshingly thought-provoking...” – The Financial Times The essential playbook for the future of your business What To Do When Machines Do Everything is a guidebook to succeeding in the next generation of the digital economy. When systems running on Artificial Intelligence can drive our cars, diagnose medical patients, and manage our finances more effectively than humans it raises profound questions on the future of work and how companies compete. Illustrated with real-world cases, data, and insight, the authors provide clear strategic guidance and actionable steps to help you and your organization move ahead in a world where exponentially developing new technologies are changing how value is created. Written by a team of business and technology expert practitioners—who also authored Code Halos: How the Digital Lives of People, Things, and Organizations are Changing the Rules of Business—this book provides a clear path to the future of your work. The first part of the book examines the once in a generation upheaval most every organization will soon face as systems of intelligence go mainstream. The authors argue that contrary to the doom and gloom that surrounds much of IT and business at the moment, we are in fact on the cusp of the biggest wave of opportunity creation since the Industrial Revolution. Next, the authors detail a clear-cut business model to help leaders take part in this coming boom; the AHEAD model outlines five strategic initiatives—Automate, Halos, Enhance, Abundance, and Discovery—that are central to competing in the next phase of global business by driving new levels of efficiency, customer intimacy and innovation. Business leaders today have two options: be swallowed up by the ongoing technological evolution, or ride the crest of the wave to new profits and better business. This book shows you how to avoid your own extinction event, and will help you; Understand the untold full extent of technology's impact on the way we work and live. Find out where we're headed, and how soon the future will arrive Leverage the new emerging paradigm into a sustainable business advantage Adopt a strategic model for winning in the new economy The digital world is already transforming how we work, live, and shop, how we are governed and entertained, and how we manage our money, health, security, and relationships. Don't let your business—or your career—get left behind. What To Do When Machines Do Everything is your strategic roadmap to a future full of possibility and success. Or peril.
