From a journalist on the frontlines of the Students for Fair Admission (SFFA) v. Harvard case comes a probing examination of affirmative action, the false narrative of American meritocracy, and the attack on Asian American excellence with its far-reaching implications—from seedy test-prep centers to gleaming gifted-and-talented magnet schools, to top colleges and elite business, media, and political positions across America. Even in the midst of a nationwide surge of bias and incidents against them, Asians from coast to coast have quietly assumed mastery of the nation's technical and intellectual machinery and become essential American workers. Yet, they've been forced to do so in the face of policy proposals written in the name of diversity—excluding them from the upper ranks of the elite. In *An Inconvenient Minority*, journalist Kenny Xu traces elite America's longstanding unease about a minority potentially upending them. Leftist agendas, such as eliminating standardized testing, doling out racial advantages to “preferred” minorities, and lumping Asians into “privileged” categories despite their deprived historical experiences have spurred Asian Americans to act. Going beyond the Students for Fair Admission (SFFA) v. Harvard case, Xu unearths the skewed logic rippling countrywide, from Mayor Bill de Blasio's attempted makeover of New York City's Specialized School programs to the battle over “diversity” quotas in Google's and Facebook's progressive epicenters, to the rise of Asian American activism in response to unfair perceptions and admission practices. Asian Americans' time is now, as they increase their direct action and amplify their voices in the face of mounting anti-Asian attacks. *An Inconvenient Minority* chronicles the political and economic repression and renaissance of a long ignored racial identity group—and how they are central to reversing America's cultural decline and preserving the dynamism of the free world.

Congresswoman Stephanie Murphy is one of the single greatest threats to our Republic that you haven't heard about. She has the money and motivation to end up in the White House, which would be disastrous for the United States of America. From her Communist beginnings to marrying into an uber-wealthy family that can fund her political rise, there is a lot more to Stephanie Murphy than meets the eye. Either we demand answers about her connections to Communism, the Deep State, Nancy Pelosi and one of Hillary Clinton's most prominent allies, or we allow her to continue her transformation into one of the most formidable Manchurian candidates we have ever seen. The choice is yours.

Mama of ten Abbie Halberstadt helps women humbly and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Moms only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for moms to grow and thrive. As a daughter of Christ, you have been called to be more than an average mom. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. *M is for Mama* offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.
