Delphi - HISTORY

Delphi was not only the centre of the Ancient world, but heart of Hellenistic culture. A lot of facts, dates, also plenty funny stories from history of Antiquity. Despite this, first part of book is a bit academic, but other part is perfect and you even won't feel how the last page will come.

Delphi: A History of the Center of the Ancient World ...

Delphi was an important ancient Greek religious sanctuary sacred to the god Apollo. Located on Mt. Parnassus near the Gulf of Corinth, the sanctuary was home to the famous oracle of Apollo which gave cryptic predictions and guidance to both city -states and individuals. In addition, Delphi was also home to the panhellenic Pythian Games.

Delphi - Ancient History Encyclopedia

The history of the sanctuary can be traced back to ancient myths, which state that the place was the lair of a dangerous serpent named Python, who was killed by Apollo. Delphi, Greece, in 2005 © Runner1928/WikiCommons Delphi was also home to the Pythian Games, ancient competitions which took place every four years in honor of Apollo.

A Very Brief History Of Delphi, Greece - Culture Trip

Michael Scott's Delphi is a fascinating stroll through the history of the spiritual center of the ancient Greek world. It seems obvious that he'd touch on the spiritual significance of the site, but he also focuses on the potent political influence the oracle exerted over the city-states, mixing the mysticism with all-to-human politics, and narrating a story of Delphi from the apex of its influence to its decline.

Delphi: A History of the Center of the Ancient World eBook ...

Delphi, a brief history of the "Navel of the Earth" Apollo, the god of purification and divination, established the initial forms of his faith at Delphi. He taught people the importance of «measure» and became the most moral and peaceful expression of the Greek spirit and culture.

Delphi - a brief history of the "Navel of the Earth ...

Delphi language is based on Object Pascal. Today, Delphi is much more than simply "Object Pascal language". The roots: Pascal and its history The origin of Pascal owes much of its design to Algol - the first high-level language with a readable, structured, and systematically defined syntax.

The History of Delphi - ThoughtCo

Delphi was an ancient sanctuary of the Pythia, located on the south-western slope of Mount Parnassus in central Greece. The Pythia was established as a high priest cult around the 8th century BC (although some sources suggest they may be present in some form as early as 1400 BC), and continued to be consulted for important political and religious decisions until the 4th century AD.

The Oracle of Delphi - HeritageDaily - Archaeology News

Delphi, ancient town and seat of the most important Greek temple and oracle of Apollo. It lay in the territory of Phocis on the steep lower slope of Mount Parnassus, about 6 miles (10 km) from the Gulf of Corinth. Delphi is now a major archaeological site with well-preserved ruins. It was designated a UNESCO World Heritage site in 1987.

Delphi: A History of the Center of the Ancient World Princeton University Press 2014. Shortlisted by the Anglo-Hellenic League for the Runciman Award 2015. The oracle and sanctuary of the Greek god Apollo at Delphi were known as the "omphalos" the "center" or "navel" of the ancient world for more than 1000 years.

Delphi: A History of the Center of the Ancient World ...

Delphi (/ ˈ d ɪ l f ə , ˈ d ɪ l f i /; Greek: Δελφοί), in legend previously called Pytho (Πυθώ), in ancient times was a sacred precinct that served as the seat of Pythia, the major oracle who was consulted about important decisions throughout the ancient classical world. The oracle was international in character and also fostered sentiments of Greek nationality, even though the nation of Greece was centuries away from realization.

Delphi - Wikipedia

Rewriting history was not the only role for Delphi in this period. In 368 BC, a (nother) peace conference was held at Delphi to try and settle the ongoing political and military disputes in Greece that would eventually culminate in another major clash in 362 at the battle of Mantinea.

Provides a narrative history of this sanctuary and city, from its founding to its modern rediscovery, to show more clearly than ever before why Delphi was one of the most important places in the ancient world for so long. Scott covers the whole history and nature of Delphi, from the literary and archaeological evidence surrounding the site, to its rise as a center of worship with a wide variety of religious practices, to the constant appeal of the oracle despite her cryptic prophecies. He describes how Delphi became a contested sacred site for Greeks and Romans and a storehouse for the treasures of rival city-states and foreign kings. He also examines the eventual decline of the site and how its meaning and importance have continued to be reshaped right up to the present. Finally, for the modern visitor to Delphi, he includes a brief guide that highlights key things to see and little-known treasures. --From publisher description.

A comprehensive narrative history of the ancient world's center, from its founding to its modern rediscovery The oracle and sanctuary of the Greek god Apollo at Delphi were known as the "omphalos" the "center" or "navel" of the ancient world for more than 1,000 years. Individuals, city leaders, and kings came from all over the Mediterranean and beyond to consult Delphi's oracular priestess; to set up monuments to the gods; and to take part in competitions. In this richly illustrated account, Michael Scott covers the history and nature of Delphi, from the literary and archaeological evidence surrounding the site, to its rise as a center of worship, to the constant appeal of the oracle despite her cryptic prophecies. He describes how Delphi became a contested sacred site for Greeks and Romans and a storehouse for the treasures of rival city-states and foreign kings. He also examines the eventual decline of the site and how its meaning and importance have continued to be reshaped. A unique window into the center of the ancient world, Delphi will appeal to general readers, tourists, students, and specialists.

The oracle and sanctuary of the Greek god Apollo at Delphi were known as the ὀμφαλός—the “center” or “navel”—of the ancient world for more than 1000 years. Individuals, city leaders, and kings came from all over the Mediterranean and beyond to consult Delphi's oracular priestess; to set up monuments to the gods in gold, ivory, bronze, marble, and stone; and to take part in athletic and musical competitions. This book provides the first comprehensive narrative history of this extraordinary sanctuary and city, from its founding to its modern rediscovery, to show more clearly than ever before why Delphi was one of the most important places in the ancient world for so long. In this richly illustrated account, Michael Scott covers the whole history and nature of Delphi, from the literary and archaeological evidence surrounding the site, to its rise as a center of worship with a wide variety of religious practices, to the constant appeal of the oracle despite her cryptic prophecies. He describes how Delphi became a contested sacred site for Greeks and Romans and a storehouse for the treasures of rival city-states and foreign kings. He also examines the eventual decline of the site and how its meaning and importance have continued to be reshaped right up to the present. Finally, for the modern visitor to Delphi, he includes a brief guide that highlights key things to see and little-known treasures. A unique window into the center of the ancient world, Delphi will appeal to general readers, tourists, students, and specialists.

This book investigates and re-evaluates the remains of the two most important sanctuaries in ancient Greece.

A gripping modern-day detective story about the scientific quest to understand the Oracle of Delphi Like Walking the Bible, this fascinating book turns a modern eye on an enduring legend. The Oracle of Delphi was one of the most influential figures in ancient Greece. Human mistress of the god Apollo, she had the power to enter into ecstatic communion with him and deliver his prophecies to men. Thousands of years later, Pulitzer Prize-winning journalist William J. Broad follows a crew of enterprising researchers as they sift through the evidence of history, geology, and archaeology to reveal—as far as science is able—the source of her visions.

A history of oracles considers such examples as the oracles at Delphi, pre-Hispanic America, and in numerous works of fiction and popular culture, offering insight into humanity's beliefs about signs and astrology while noting the influence of oracles over civilization. Reprint. 10,000 first printing.

"As panoramic as it is learned, this is ancient history for our globalized world." Tom Holland, author of *Dynasty* and *Rubicon* Twenty-five-hundred years ago, civilizations around the world entered a revolutionary new era that overturned old order and laid the foundation for our world today. In the face of massive social changes across three continents, radical new forms of government emerged; mighty wars were fought over trade, religion, and ideology; and new faiths were ruthlessly employed to unify vast empires. The histories of Rome and China, Greece and India—the stories of Constantine and Confucius, Qin Shi Huangdi and Hannibal—are here revealed to be interconnected incidents in the midst of a greater drama. In *Ancient Worlds*, historian Michael Scott presents a gripping narrative of this unique age in human civilization, showing how diverse societies responded to similar pressures and how they influenced one another: through conquest and conversion, through trade in people, goods, and ideas. An ambitious reinvention of our grandest histories, *Ancient Worlds* reveals new truths about our common human heritage. "A bold and imaginative page-turner that challenges ideas about the world of antiquity." Peter Frankopan, author of *The Silk Roads*

*Includes pictures *Includes ancient accounts of Delphi *Includes a bibliography and online resources for further reading "[T]he seat of the oracle is a cavern hollowed down in the depths...from which arises pneuma [breath, vapor, gas] that inspires a divine state of possession." - Strabo, *Geography* 9.3.5 The ancient Greeks used a number of forms of divination to determine the future and seek advice from the gods as to which actions they should take in any given situation. The most popular of these ways to consult the Gods was through a visit to an oracle—usually a person—at a fixed shrine. The oldest of these Greek sites was at Dodona in Epirus, and while it continued to be a major oracle for the Greek world through antiquity, it was quickly overtaken by the oracle at Delphi as the most consulted by kings, politicians, and ordinary Greeks alike. Whereas the oracle at Dodona was of Zeus, that at Delphi was of Apollo. Over the years, the Delphic Oracle—located, it was believed, at the omphalos, the belly button of the world—came to such a position of preeminence that almost every major decision taken by any Greek poleis in the Classical period involved a consultation with the god Apollo to ascertain whether the proposed action would be sanctioned by the gods. The format of the question was normally that of seeking approval for a proposition already decided upon, rather than an attempt to illicit instruction per se. Colonization decisions, political changes, and matters of religion were all subject to final approval from Delphi, delivered by the Pythia, the oracle through which the god was thought to speak. At an individual level and for those who could afford it, decisions on such matters as marriage, children, and business ventures were made after the oracle had spoken. The oracle's influence on so many major events in the Archaic, Classical, and to a lesser extent, Hellenistic and Roman periods is without parallel in any other part of the world or time. For many years, academics struggled to identify why it was that this particular oracle—rather than the oldest or one dedicated to any of the major Olympians—came to play such a decisive role in the lives of Greeks in the ancient world. Delphi overlooks the Gulf of Corinth, and it is no wonder why the setting mesmerized contemporaries. The majestic, almost magical, aspect of the site, bordered by precipitous cliffs and craggy footpaths on a hillside that is dotted with deep, dark caves and lined by gargling streams of pure water, never fails to inspire a sense of awe and wonder in its visitors, even to this very day. Despite the oracle's fame and popularity, however, modern knowledge of Delphi remains limited in certain respects. Cultic history has become so intertwined with cultic myth that the lines separating one from another have been nearly lost. Modern scholars studying the oracle of Delphi have tried to pull the shroud of mythology away from historical facts to illuminate the realities of the Apolline cult, but the job has often proved trickier than imagined. If anything, the work of scholars has deepened the mysticism of Delphi rather than dispel it, in large measure due to documenting fascinating and mysterious stories about the oracle. Certain aspects of the Delphic cult will likely always be impossible to describe with any degree of accuracy or certainty, despite scholars' best attempts at imaginative reconstruction, because its foundation and function depended entirely upon religious belief in Apollo and his prophetic gift, which no amount of scholarship can fully explain. *Delphi: The History of the Ancient Greek Sanctuary and Home to the World's Most Famous Oracle* looks at the famous Greek site, and the oracle's role in history. Along with pictures depicting important people, places, and events, you will learn about Delphi like never before.

The first English-language survey of ancient Greek divinatory methods, *Ancient Greek Divination* offers a broad yet detailed treatment of the earliest attempts by ancient Greeks to seek the counsel of the gods. Offers in-depth discussions of oracles, wandering diviners, do-it-yourself methods of foretelling the future, magical divinatory techniques, and much more Illustrates how the study of divination illuminates the mentalities of ancient Greek religions and societies

A fascinating collection of tales and lore from the ancient Oracle at Delphi, this book provides both a collection of good stories and finds spiritual enlightenment weaved throughout these diverse offerings.
