~~Demand Planning — QAD Inc~~

QAD DynaSys Supply Planning provides comprehensive and holistic supply planning to calculate optimal distribution, manufacturing and procurement plans. QAD DynaSys Demand and Supply Chain Planning (DSCP) coordinates material and information flow across the entire logistics network. Finite capacity distribution plans respect lead-time, batch size, ordering, shipping and receiving calendar constraints.

~~Supply Planning Process — QAD DynaSys~~

The first thing we must do regarding demand planning in this unprecedented situation is to adapt our processes and systems to track and anticipate abrupt changes in demand much more quickly than in times of stability. For statistical forecasting, we should consider using models and parameters that are more reactive to recent sales history.
