One of Christie's non-series efforts, DESTINATION UNKNOWN may be somewhat self-revealing on other counts, in terms of the background of Hilary Craven, who enters the story and takes over the protagonist's role after the prologue establishes that scientists have been vanishing mysteriously all over the world - apparently voluntarily, and with no other common factor than first-class brilliance.

This type of story is the kind that Christie does not do well. Anytime Agatha Christie steps away from a rural mystery and decides to write about espionage or things of that nature or anything about the supernatural, she bombs. This book is dull, dry, and filled with uninteresting characters.
