This volume gathers leading figures from legal philosophy and constitutional theory to offer a critical examination of the work of Robert Alexy. The contributions explore the issues surrounding the complex relations between rights, law, and morality and reflect on Alexy's distinctive work on these issues. The focus across the contributions is on Alexy's main pre-occupations - his anti-positivist views on the nature of law, his approach to the nature of legal reasoning, and his understanding of constitutional rights as legal principles. In an extended response to the contributions in the volume, Alexy develops his views on these central issues. The volume's juxtaposition of Anglo-American and German perspectives brings into focus the differences as well as the prospect of cross-fertilization between Continental and Anglo-American work in jurisprudence.

"This book explores the life, professional activities, artistic production and collecting practices of Georges Hoentschel through the objects he collected and created. Essays by the editors, joined by Amy F. Ogata, associate professor at Bard Graduate Center and Christine E. Brennan, senior research associate in Medieval Art at the Metropolitan Museum, address his biography, business contacts, and clients, as well as the arrival of the collection in New York, its lavish four-volume illustrated catalogue, and the medieval collections. Also discussed is Hoentschel's involvement with contemporary art, including his intriguing stoneware creations and designs for a pavilion and interiors at the 1900 Exposition Universelle in Paris. Fully illustrated catalogue entries explore the astonishing range of objects he collected. Throughout the book, new documentary material from archives and newspapers illuminates this little-explored chapter in the history of collecting decorative arts between France and America at the dawn of the twentieth century."--book jacket.
