It has been well over a year since I sat down and tried to wrap my head around another chapter of Dr Judy Wood's copyright infringing magnum opus "Where did The Towers Go". In the past, I have written about her misinterpretation of the seismic data collected by Columbia University, how her disrobing ray beam makes no sense and that "dustification" is not a thing.

Myles also does a decent job of explaining why Wood's claims about the Towers being "dustified" is total bollocks. Wood apparently presents this photo of Ground Zero to demonstrate the supposed lack of steel debris at the site. Myles counters by pointing out that Wood never spoke with a single first-responder or member of the clean-up crew.

Discover the true story of the Twin Towers--how they came to be the tallest buildings in the world and why they were destroyed. When the Twin Towers were built in 1973, they were billed as an architectural wonder. At 1,368 feet, they clocked in as the tallest buildings in the world and changed the New York City skyline dramatically. Offices and corporations moved into the towers--also known as the World Trade Center--and the buildings were seen as the economic hub of the world. But on September 11, 2001, a terrorist attack toppled the towers and changed our nation forever. Discover the whole story of the Twin Towers--from their ambitious construction to their tragic end.

From award-winning author Jewell Parker Rhodes comes a powerful novel set fifteen years after the 9/11 attacks in a classroom of students who cannot remember the event but live through the aftermath of its cultural shift. When her fifth-grade teacher hints that a series of lessons about home and community will culminate with one big answer about two tall towers once visible outside their classroom window, Dèja can't help but feel confused. She sets off on a journey of discovery, with new friends Ben and Sabeen by her side. But just as she gets closer to answering big questions about

who she is, what America means, and how communities can grow (and heal), she uncovers new questions, too. Like, why does Pop get so angry when she brings up anything about the towers? Award-winning author Jewell Parker Rhodes tells a powerful story about young people who weren't alive to witness this defining moment in history, but begin to realize how much it colors their every day.

This fascinating book, first published in 1834 as *The Round Towers of Ireland or the Mysteries of Freemasonry, of Sabaism, and of Budhism*, was an instant sensation at the time, and was one of the first modern studies of Atlantis, Round Towers, pre-Christian Megalithic Architecture and Secret Societies. In addition to being a sourcebook on Atlantis Research, Druidic Culture and origins of modern Celtic Christianity, the book is a treasure trove of ancient esoteric lore and arcane knowledge of the past. Includes: The History of the Tuatha-de-Danaans; The Round Towers and Megalithic Crosses of Ireland are pre-Christian; Ireland's strange connections with ancient India, Persia and China; Ancient Secret Societies and Ireland; Ancient Egyptians and Ireland; Pre-Christian Messiahs, Mithraism, and Ireland; The Connections Between Atlantis and Ireland.

Martello towers were built in the early part of the nineteenth century to defend the coast of England against Napoleonic invasion. Almost 200 years later forty-one of these handsome brick towers still stand along the coast of Kent, Sussex, Essex and Suffolk. The cost of their construction was comparable in relative terms to that of today's Trident missile system. The line of towers was never tested in action, but acted as an effective deterrent against invasion. Today Martello towers are a familiar sight from Aldeburgh in Suffolk to Newhaven in Sussex, but it is generally known that similar towers were built by the Royal Engineers to defend British interests in other parts of the world. Martello towers were being built as late as the 1850s as far afield as Canada, Mauritius,

Australia and the Mediterranean. This book, illustrated with numerous photographs and plans, is the first comprehensive and detailed study of the known Martello towers built by the British. Its description of their construction, use, current condition and fate will fascinate the enquiring reader, as well as being a source of interest to visitors. Many of the towers remain landmarks today, Fort Denison in Sydney Harbour being a case in point.

Nazi Germany —A jaw-dropping financial thriller— —Philadelphia Inquirer On a rainy Sunday in 2014, a senior executive at Deutsche Bank was found hanging in his London apartment. Bill Broeksmit had helped build the 150-year-old financial institution into a global colossus, and his sudden death was a mystery, made more so by the bank's efforts to deter investigation. Broeksmit, it turned out, was a man who knew too much. In *Dark Towers*, award-winning journalist David Enrich reveals the truth about Deutsche Bank and its epic path of devastation. Tracing the bank's history back to its propping up of a default-prone American developer in the 1880s, helping the Nazis build Auschwitz, and wooing Eastern Bloc authoritarians, he shows how in the 1990s, via a succession of hard-charging executives, Deutsche made a fateful decision to pursue Wall Street riches, often at the expense of ethics and the law. Soon, the bank was manipulating markets, violating international sanctions to aid terrorist regimes, scamming investors, defrauding regulators, and laundering money for Russian oligarchs. Ever desperate for an American foothold, Deutsche also started doing business with a self-promoting real estate magnate nearly every other bank in the world deemed too dangerous to touch: Donald Trump. Over the next twenty years, Deutsche executives loaned billions to Trump, the Kushner family, and an array of scandal-tarred clients, including convicted sex offender Jeffrey Epstein. *Dark Towers* is the never-before-told saga of how Deutsche Bank became the global face of financial recklessness and criminality—the corporate equivalent of a weapon of mass destruction. It is also the story of a man who was consumed by fear of what he'd seen at the bank—and his son's obsessive search for the secrets he kept.
