**NATIONAL BESTSELLER** • Julia's story of her transformative years in France in her own words is "captivating ... her marvelously distinctive voice is present on every page." (San Francisco Chronicle). Although she would later singlehandedly create a new approach to American cuisine with her cookbook *Mastering the Art of French Cooking* and her television show *The French Chef*, Julia Child was not always a master chef. Indeed, when she first arrived in France in 1948 with her husband, Paul, who was to work for the USIS, she spoke no French and knew nothing about the country itself. But as she dove into French culture, buying food at local markets and taking classes at the Cordon Bleu, her life changed forever with her newfound passion for cooking and teaching. Julia's unforgettable story—struggles with the head of the Cordon Bleu, rejections from publishers to whom she sent her now-famous cookbook, a wonderful, nearly fifty-year long marriage that took the Childs across the globe—unfolds with the spirit so key to Julia's success as a chef and a writer, brilliantly capturing one of America's most endearing personalities.

With a new Foreword by April Baker-Bell and a new Preface by Vereshawn Ashanti Young and Y'Shanda Young-Rivera, *Other People's English: Code-Meshing, Code-Switching, and African American Literacy* presents an empirically grounded argument for a new approach to teaching writing to diverse students in the English language arts classroom. Responding to advocates of the "code-switching" approach, four uniquely qualified authors make the case for "code-meshing"—allowing students to use standard English, African American English, and other Englishes in formal academic writing and classroom discussions. This practical resource translates theory into a concrete road map for pre- and inservice teachers who wish to use code-meshing in the classroom to extend students' abilities as writers and thinkers and to foster inclusiveness and creativity. The text provides activities and examples from middle and high school as well as college and addresses the question of how to advocate for code-meshing with skeptical administrators, parents, and students. *Other People's English* provides a rationale for the social and educational value of code-meshing, including answers to frequently asked questions about language variation. It also includes teaching tips and action plans for professional development workshops that address cultural prejudices.

*OFF THE GRID WITHOUT A PADDLE* is the true story of two greenhorns, escapees from the gritty City Of Los Angeles, who buy a home off the grid in a tropical mountain rainforest in rural Hawaii, with fantasies of utopia and dreams of self-sufficiency, but no real idea of what they're getting into. In their first year in an unfamiliar new world, the high-tech, low-tech, no-tech learning curve is steep and hilarious: exasperating, exhilarating . . . exciting! Whether or not you share the dream of moving off the grid, you'll get a laugh out of their unexpected adventures.

"Me and E: A Baseball Odyssey is a reflection on parenting a highly skilled, nationally-ranked and difficult baseball prodigy, told through the author's eyes as he witnessed and participated in the successes and failures of his son playing baseball and growing up in Central Florida. It deals with the changing world of competitive youth sports, over-involved parents, fanatical coaches, the hypocrisies inherent in high school athletics, the college recruiting process and how we teach our kids to grow up and become decent human beings - despite ourselves. It involves well-known sports figures as well as local sports icons with traits and characteristics that everyone will recognize. It's a book about flawed parenting, about living vicariously through a gifted child and learning, finally, that being a good father is as much about letting go as it is about being there. Call it Moneyball meets Everything I Know I Learned in Kindergarten.
