Parts For Contaminated Ford 6.75 Engines | Standard Diesel

Find the engine, casting, or part number. Ford places the part number in various locations, depending on the engine. Common locations include the rear of the engine, near the starter mount and bellhousing, on the front of the block's right side (when looking at it from the front), on the left side of in-line-cylinder engines, or by the oil filter mount.

How to Identify a Ford Industrial Engine | It Still Runs

Originally established in 1947 as the "Industrial Engine Operation of Ford Motor Company", and going by several names over the years, Ford Power Products is now managed by Ford Component Sales: a wholly owned subsidiary of the Ford Motor Company. Back when they were called "Ford Industrial Power Products", they marketed diesel engines sourced ...
