Travellers from other countries will not have to quarantine if they have valid proof that they are fully vaccinated or recovered from Covid-19.

In 1970 Jerry Della Femina wrote this gossip-filled, insider's account of working on Madison Avenue during the golden age of advertising. It caused a sensation, became a bestseller and established itself as a cult classic. Years later it inspired the multi-award-winning drama 'Mad Men'.

A gorgeous slipcased edition of the essential New York Times bestseller--perfect as a gift for anyone beginning something new! This gorgeous gift edition of Emily Winfield Martin's modern classic poem will elevate any special occasion! With extra pages designed to be personalized with notes from friends and family, this volume is sure to be treasured and revisited often. From brave and bold to creative and clever, Emily Winfield Martin celebrates all personalities and their potential. With a beautiful gatefold, gorgeous and moving illustrations, and a rhyming text, this is a book that parents will love reading over and over to their kids--both younger and older. It's a great gift for any occasion, but a standout for birthdays, baby showers, and graduation with its loving and inspiring message: Then I'll look at you, And you'll look at me, And I'll love you, Whoever you've grown up to be.

This is a new release of the original 1947 edition.

Illustrations and simple rhyming text show that while the body parts of various human and Muppet characters may look different, they have similar uses.--

An intimate and profound reckoning with the changes buffeting the \$2 trillion global advertising and marketing business from the perspective of its most powerful players, by the bestselling author of Googled Advertising and marketing touches on every corner of our lives, and the industry is the invisible fuel powering almost all media. Complain about it though we might, without it the world would be a darker place. But of all the industries wracked by change in the digital age, few have been turned on their heads as dramatically as this one. Mad Men are turning into Math Men (and women--though too few), an instinctual art is transforming into a science, and we are a long way from the days of Don Draper. Frenemies is Ken Auletta's reckoning with an industry under existential assault. He enters the rooms of the ad world's most important players, meeting the old guard as well as new powers and power brokers, investigating their perspectives. It's essential reading, not simply because of what it reveals about this world, but because of the potential consequences: the survival of media as we know it depends on the money generated by advertising and marketing--revenue that is in peril in the face of technological changes and the fraying trust between the industry's key players.

"Breezy and salty." -The New York Times "Hilarious! Honest, intimate, this book tells it as it was." -Mary Wells Lawrence, author of A Big Life (In Advertising) and founding president of Wells Rich Greene "Breezy and engaging [though] ... The chief value of Mad Women is the witness it bears for younger women about the snobbery and sexism their mothers and grandmothers endured as the price of entry into mid-century American professional life." -The Boston Globe "A real-life Peggy Olson, right out of Mad Men." -Shelly Lazarus, Chairman, Ogilvy & Mather What was it like to be an advertising woman on Madison Avenue in the 60s and 70s - that Mad Men era of casual sex and professional serfdom? A real-life Peggy Olson reveals it all in this immensely entertaining and bittersweet memoir. Mad Women is a tell-all account of life in the New York advertising world by Jane Maas, a copywriter who succeeded in the primarily male jungle depicted in the hit show Mad Men. Fans of the show are dying to know how accurate it is: was there really that much sex at the office? Were there really three-martini lunches? Were women really second-class citizens? Jane Maas says the answer to all three questions is unequivocally "yes." Her book, based on her own experiences and countless interviews with her peers, gives the full stories, from the junior account man whose wife almost left him when she found the copy of Screw magazine he'd used to find "a date" for a client, to the Ogilvy & Mather's annual Boat Ride, a sex-and-booze filled orgy, from which it was said no virgin ever returned intact. Wickedly funny and full of juicy inside information, Mad Women also tackles some of the tougher issues of the era, such as unequal pay, rampant, jaw-dropping sexism, and the difficult choice many women faced between motherhood and their careers.

A sweeping and turbulent drama about the anxieties of postwar Britain, where one strong and inspirational young woman looks to find her place, no matter the cost. Sometimes, the truth lies in fiction It's hard to be an American girl in 1957. Especially when your dad's job means you have to move four thousand miles from home. Especially if you'd rather play baseball than wear a dress. Especially if you see your mom fraying a little more from anxiety each day. And especially if being five minutes older means you have to protect your fragile twin brother. Still, Hedy Delaney loves her family, and she's trying to make the best of her new life on a U.S. airbase in England. After all, her dad's a war hero, her mother's a beauty, and her brother's a brainiac who writes moving stories about space travel. Then one tragic day, the unforeseen occurs and all three are ripped away, leaving Hedy alone with countless questions. What really happened on the airbase? What went on behind military closed doors? What were the secrets that could never be told? And how could any of it have led to her family's destruction? In her search for the truth, Hedy turns to a story her brother began months before he died. Deciding to finish what her brother started, Hedy begins to piece together what happened to her family. But whether she's ready for what she'll discover is another matter entirely. A sweeping and turbulent family drama, The Wonderful asks whether writing fiction can uncover fact, and if it's ever better to let the truth remain hidden. Sometimes, it's safer not to finish what you've started.

Vividly reminiscent of the goings-on at Sterling Cooper/the late nights, the three-martini lunches, the sex on couches, and, of course, the actual work of plugging products|this is the story of what Madison Avenue was really like in the 1960s. A worldwide bestseller when first published in 1970, this frank, irreverent, and hilarious memoir is a one-of-a-kind cult classic.

"Little River, New York, 1994: April Sawicki is living in a run-down motorhome, flunking out of school, and picking up shifts at the local diner. But when April realizes she's finally had enough-enough of her selfish, absent father and barely surviving in an unfeeling town-she decides to make a break for it. Stealing a car and with only her music to keep her company, April hits the road, determined to live life on her own terms. She manages to scrape together a meaningful existence as she travels, encountering people and places she's never dreamed of, and could never imagine deserving. From lifelong friendships to tragic heartbreaks, April chronicles her journey in the beautiful music she creates as she discovers that home is with the people you choose to keep"--Publisher's description.
