In HONOR'S REWARD, bestselling author John Bevere unveils the power and truth of an often-overlooked principle—the spiritual law of honor. Bevere explains that understanding the vital role of this virtue will enable readers to attract blessing both now and for eternity.

The first comprehensive one-volume collection of St.Thomas More's writing In this book, Wegemer and Smith assemble More's most important English and Latin works for the first time in a single volume. This volume reveals the breadth of More's writing and includes a rich selection of illustrations and artwork. The book provides the most complete picture of More's work available, serving as a major resource for early modern scholars, teachers, students, and the general reader.

With each passing day, more and more young people are walking away from the faith. So far, in America, two generations have been seduced by the world and its unhealthy "rites of passage" premarital sex, alcohol consumption, and other hedonistic activities.If another generation is lost, it will have a dramatic impact on the moral climate of both the church and our nation. Parents can help preserve this generation by lovingly directing their children toward godly rites of passage and, ultimately, godly adulthood.Dr. Chuck Stecker has devoted his life and ministry to this cause, and this book is his personal exhortation to parents who want their children to be Men of Honor, Women of Virtue.

Presenting a background study of honor, the author compares ancient concepts with the sympathetic restatements of them that appeared during the Renaissance. He places Shakespeare's plays in the context of these Renaissance ideas, pointing up the sharp conflict between Christian morality and the revived pagan humanism. He demonstrates by pertinent evidence from the plays that Shakespeare favored humanist values over Christian values. Originally published in 1960. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from

the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

In his classic book, *The Five Dysfunctions of a Team*, Patrick Lencioni laid out a groundbreaking approach for tackling the perilous group behaviors that destroy teamwork. Here he turns his focus to the individual, revealing the three indispensable virtues of an ideal team player. In *The Ideal Team Player*, Lencioni tells the story of Jeff Shanley, a leader desperate to save his uncle's company by restoring its cultural commitment to teamwork. Jeff must crack the code on the virtues that real team players possess, and then build a culture of hiring and development around those virtues. Beyond the fable, Lencioni presents a practical framework and actionable tools for identifying, hiring, and developing ideal team players. Whether you're a leader trying to create a culture around teamwork, a staffing professional looking to hire real team players, or a team player wanting to improve yourself, this book will prove to be as useful as it is compelling.

A controversial call to put honor at the center of morality To the modern mind, the idea of honor is outdated, sexist, and barbaric. It evokes Hamilton and Burr and pistols at dawn, not visions of a well-organized society. But for philosopher Tamler Sommers, a sense of honor is essential to living moral lives. In *Why Honor Matters*, Sommers argues that our collective rejection of honor has come at great cost. Reliant only on Enlightenment liberalism, the United States has become the home of the cowardly, the shameless, the selfish, and the alienated. Properly channeled, honor encourages virtues like courage, integrity, and solidarity, and gives a sense of living for something larger than oneself. Sommers shows how honor can help us address some of society's most challenging problems, including education, policing, and mass incarceration. Counterintuitive and provocative, *Why Honor Matters* makes a convincing case for honor as a cornerstone of our modern society.

This book examines key features, problems, and implications of the 2016-2017 Candlelight Movement, a historical cornerstone for democracy and social movements in South Korea. The Candlelight Movement brought profound social changes with important lessons and questions for scholars, practitioners, activists, and the public. To examine the full complexity of the movement, this edited volume utilises wide-ranging methodological and theoretical approaches, which include case study approaches, ethnography, survey, feminist film criticism, critical discourse analysis, and rhetorical criticism. Chapters place 'communication' at the centre of their analyses, calling attention to the mediated and mediatised, the performative and other discursive practices of the 2016-2017 Candlelight Movement. In doing so, the book discusses not only the usual players and factors - nor the institutions that exert their influence through democratic politics and the public sphere - but also the counter-public embracing new and social media, collective singing, the body, and performance, as their choice of political media. As such, this volume offers important insights into how communication plays a critical role in forming, moving, and transforming new social movements. *The Candlelight Movement, Democracy, and Communication in Korea* will appeal to students and scholars of communication and media studies, political science, sociology, and Korean studies.

You Can Destroy What Steals Your Strength Just like Superman, who can leap over any hurdle and defeat every foe, followers of Christ have the supernatural ability to conquer the challenges we face. But the problem for both Superman and us is there's a kryptonite that steals our strength. Of course, both Superman and kryptonite are fictional. But spiritual kryptonite is not. This book offers answers to why so many of us are unable to experience the divine strength that was evident among first-century Christians. In *Killing Kryptonite*, John Bevere reveals what this kryptonite is, why it's compromising our communities, and how to break free from its bondage. Not for the faint of heart, *Killing Kryptonite* is anything but a spiritual sugar high. This is serious truth for any Christ-follower who longs to embrace the challenging but rewarding path of transformation. Includes discussion questions for group study
