The M102 engine family was a straight-4 gasoline automobile engine from Mercedes-Benz in the 1980s and early 1990s. It is a relatively oversquare engine with a large bore and short stroke compare to the M115 engine which was used during the same time frame.

**Mercedes-Benz M102 engine**—Wikipedia

The M102 engine came out to replace the old M115 engine in 1980. This four cylinders engine was built entirely from scratch. It had new cast iron cylinder block, aluminum 8-valve cylinder head with one camshaft. Late engines (until 1984) didn't have hydraulic tappets/lifters.
