to capture the notion of a logically and cohesively organized body of knowledge. It may range from specific topics such as post-traumatic stress disorder to fields of study lacking clear-cut boundaries, such as research on terrorism or regenerative medicine. CiteSpace takes bibliographic information, especially citation information from the Web of Science, and generates interactive visualizations. Users can explore various patterns and trends uncovered from scientific publications, and develop a good understanding of scientific literature much

more efficiently than they would from an unguided search through literature. The full text of many scientific publications can be accessed with a single click through the interactive visualization in CiteSpace. At the end of a session, CiteSpace can generate a summary report to summarize key information about the literature analyzed. This book is a practical guide not only on how to operate the tool but also on why the tool is designed and what implications of various patterns that require special attention. This book is written with a minimum

The Nebula and World Fantasy Award-nominated author of *A Red Heart of Memories* continues the spellbinding story of the wandering witch Matilda (Matt) Black, who possesses the ability to communicate with inanimate objects and see into people's dreams—and her companion Edmund Reynolds, a young man with magic of his own who is only beginning to come to grips with his past and his powers... The two travelers have come to the

town where Edmund grew up, and found shelter in the benevolently haunted house that was a refuge for Edmund and his friends when they were children. But the house begins to speak to Matt, urgently, telling her that she and Edmund have to leave, to seek out the long-scattered friends. For a darkness is rising, a dangerous, powerful entity. And the only chance of stopping it lies in the hearts of the lost children of the house...

Literary Nonfiction. CALIBAN AND THE WITCH is a history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages to the witch-hunts and the rise of mechanical philosophy, Federici investigates the capitalist rationalization of social reproduction. She shows how the battle against the rebel body and the conflict between body and mind are essential conditions for the development of labor power and self-ownership, two central principles of modern social organization."It is

Rights Watch released a groundbreaking report on the lack of access to pain relief medicines for millions of patients worldwide. The report, "Please Don't Make Us Suffer Anymore": Access to Pain Treatment as a Human Right, finds that countries can significantly improve access to pain medications by addressing the causes of their poor availability, which include the following:

- \*Failure to put in place functioning supply and distribution systems
- \*Absence of government policies to ensure medicine availability
- \*Insufficient instruction for health care

workers \*Excessively strict drug-control regulations  
\*Fear of legal sanctions among healthcare workers.  
"Please Don't Make Us Suffer Anymore" notes that international law requires states to make narcotic drugs available for the treatment of pain while preventing abuse, but that the strong international focus on preventing abuse of such drugs has led many countries to neglect that obligation. The full report is available in PDF format. French, Russian, and Spanish versions are available on the HRW website.
