In the elementary circle, the focus is on logical reasoning, "thinking like a mathematician," and problem solving. Higher Mathematics In the middle and high school circles, students are exposed to skills and topics in higher mathematics that are outside the standard mathematics curriculum.

[Stanford Math Circle Homepage | Math Circle](#)

Math Circles are places where students and teachers get to engage with mathematically deep content presented in unique ways that promote hands-on discovery. Low-threshold, high-ceiling problems can be approached by students with minimal background but still lead to concepts rooted in advanced mathematics.

[Exploring the Fun Side of Math - Math Circles](#)

Math circles are meetings between mathematicians, students and teachers where students solve age-appropriate math problems through games, stories, and hands-on activities. Math circles expand upon the ideas of the Stevens Math Olympiad, which are to introduce important mathematical concepts, strengthen mathematical intuition and to stimulate enthusiasm, creativity and ingenuity.

Welcome to the ULCA Olga Radko Endowed Math Circle (ORMC)! Math Circle Gets a New Name. A substantial lead gift from the long term Math Circle supporter Sierra Chen has established an endowment honoring the late Math Circle's founding director Olga Radko. Thanks to Sierra's generosity, the Math Circle will now be named the UCLA Olga Radko Endowed Math Circle (ORMC).

This book is based on selected topics that the authors taught in math circles for elementary school students at the University of California, Berkeley; Stanford University; Dominican University (Marin County, CA); and the University of Oregon (Eugene). It is intended for people who are already running a math circle or who are thinking about ...

Math Circle by the Bay: Topics for Grades 1-5

Natasha Rozhkovskaya's new book, Math Circles for Elementary School Students, helps deal with both these difficulties. The book is based on Natasha's experience leading a highly popular program for elementary school students at the Berkeley Math Circle.

Math Circles for Elementary School Students—Book Review ...

The Math Circles of Chicago serves children in grades 5 through 12. Our free programs are held at eight different sites. Sessions generally meet once every other week, and the grade levels served vary and are detailed below. Every site is open to children attending any school. This winter, all MC2 sessions will meet online.

Locations—Math Circles of Chicago

Math Circles. Math circles are groups of students who come together to have fun discussing and solving intriguing math questions.

Math Circles+beanz Magazine

In 2012, a new circle was founded at Audubon Elementary School, which moved to Lane Tech at the start of the 2014 school year. In 2014 a third circle was opened in Chicago's Bridgeport neighborhood. These latter two sites host middle school students and were an outgrowth of the efforts of doctoral students in UIC's Mathematics Department. In 2015 the Math Circles of Chicago introduced two new sites. In Pilsen we partner with the Gads Hill Center.
