How to make a mixture. You can make your own mixtures with items from around the house.

1. Firstly try to make a mixture of toys. 2. This time use cereals or sweets. What is a solution?

A solution is made when a solid (which we call a solute) dissolves into a liquid (that we call the solvent) One example of a solution is salt dissolved in water.

Chemistry for Kids - Making and Separating Mixtures

A solution is a special type of mixture that is homogeneous, where you cannot tell the difference between the components. A solution is also a special type of mixture that cannot be separated via mechanical means – filtering, screening, etc. In most cases, a solution has different properties than the two or more parts that went into making it.
