With their usual skill, Brian Herbert and Kevin Anderson have taken ideas left behind by Frank Herbert and filled them with living characters and a true sense of wonder. Where Paul of Dune picked up the saga directly after the events of Dune, The Winds of Dune begins after the events of Dune Messiah. Paul has walked off into the sand, blind, and is presumed dead. Jessica and Gurney are on Caladan; Alia is trying to hold the Imperial government together with Duncan; Mohiam dead at the hands of Stilgar; Irulan imprisoned. Paul's former friend, Bronso of Ix, now seems to be leading opposition to the House of Atreides. Herbert and Anderson's newest book in this landmark series will concentrate on these characters as well the growing battle between Jessica, and her daughter, Alia.

A biography of the science fiction writer, presented by his son, describes Herbert's childhood in Tacoma, Washington, his early years as a reporter and editor, his military service, and his struggles to become published.

Follows the adventures of Paul Atreides, the son of a betrayed duke given up for dead on a treacherous desert planet and adopted by its fierce, nomadic people, who help him unravel his most unexpected destiny.

Power duo Kevin J. Anderson and Doug Beason team up in Kill Zone, a perilous disaster thriller for the modern age. Deep within a mountain in Albuquerque, New Mexico, a Cold War-era nuclear weapons storage facility is being used to covertly receive more than 100,000 tons of nuclear waste stored across the US. Only Department of Energy employee, Adonia, and a few others including a war hero, a senator, and an environmental activist, are allowed access to perform a high-level security review of the facilities. But Hydra Mountain was never meant to securely hold this much hazardous waste, and it has the potential to explode, taking with it all of Albuquerque and spreading radioactivity across the nation. This disaster situation proves all too possible when a small plane crashes at a nearby military base, setting off Hydra's lockdown and trapping Adonia and her team in the heart of the hazardous, waste-filled mountain. Now, the only direction for them to go is deeper into the mountain, through the tear gas and into a secretive area no one was ever supposed to know about. Galactic ecologist Noah Watanabe embarks on a journey to restore the ancient balances of the galaxy as he learns to negotiate the Timeweb and his own untapped powers.

"An addictively satisfying, deeply amusing, dirty-ass masterpiece." —William Gibson "A sharp-edged urban fantasy, drenched in blood and cynicism, tipping its hat to Sam Peckinpah, Raymond Chandler, and the anti-heroes of Hong Kong cinema....A bravura performance." —San Francisco Chronicle "I couldn't put it down." —Charlaine Harris Sandman Slim has arrived—a wild and weird, edge-of-your-seat supernatural roller-coaster rider that propels author Richard Kadrey to the forefront of the fantasy, thriller, and a host of other literary genres. This spellbinding, utterly remarkable tale of a vengeful magician/hitman's return from hell is part H.P. Lovecraft, part Christopher Moore, part Jim Butcher, and totally, unabashedly dark, twisted, and hilarious.

Book Two in the Magnificent Dune Chronicles—the Bestselling Science Fiction Adventure of All Time Dune Messiah continues the story of Paul Atreides, better known—and feared—as the man christened Muad'Dib. As Emperor of the known universe, he possesses more power than a single man was ever meant to wield. Worshipped as a religious icon by the fanatical Fremens, Paul faces the enmity of the political houses he displaced when he assumed the throne—and a conspiracy conducted within his own sphere of influence. And even as House Atreides begins to crumble around him from the machinations of his enemies, the true threat to Paul comes to his lover, Chani, and the unborn heir to his family's dynasty...

There's a secret in the basement of the engineering building. Three travelers, claiming to be from a utopia six thousand years hence, are helping Dr. Gustafson and his graduate staff invent a time transport. Their stated goal: to stop war and secure a peaceful future. Overloaded and overtaxed, the transport experiments start to go wrong. Dreadfully wrong. What the professors don't know is that the Travelers have their own plans for the machine. And their own secrets... The future isn't peaceful. The past is not the past. And the machine in the engineering building has everything to do with an unimaginable war. A beautifully told and intriguing mystery about two generations of Scottish women united by blood, an obsession with the past, and a long-hidden body, from the author of The House Between Tides. Libby Snow has always felt the pull of Ullaness, a headland on Scotland's sea-lashed western coast where a legend has taken root. At its center is Ulla, an eighth-century Norsewoman whose uncertain fate was entangled with two warring brothers and a man who sought to save her. Libby first heard the stories from her grandmother, who had learned it from her own forebear. Ellen, a maid at Sturrock House. The Sturrocks have owned the land where Ulla dwelled for generations, and now Libby, an archaeologist, has their permission to excavate a mysterious mound, which she hopes will cast light on the legend's truth. But before she can begin, storms reveal the unexpected: the century-old bones of an unidentified man. The discovery triggers Libby's memories of family stories about Ellen, of her strange obsession with Ulla, and of her violent past at Sturrock House. As Libby digs deeper, she unravels a recurring story of love, tragedy, and threads that bind the past to the present. And as she learns more of Rodri Sturrock, the landowner's brother, she realizes these forces are still at work, and that she has her own role to play in Ulla's dark legend.
