The concepts of force and power seem to convey similar meanings and are often confused for each other. But in physics, they are not interchangeable. Force is the fundamental result of an interaction between two objects, while power is an expression of energy consumed over time (work), of which force is an element. David R. Hawkins - Power vs. Force Audiobook

This is an excellent book that speaks of the difference between power and force. Power is quiet and requires no explanation. Force is coercive and creates an automatic counterforce. This has great applicability for couples, parents and bosses. Standing on the side of truth, justice and all that sustains life is power. This is strength of its ...

Discusses the forces that people can control versus the unseen, uncontrollable powers which actively govern many lives.

David R. Hawkins details how anyone may resolve the most crucial of all human dilemmas: how to instantly determine the truth or falsehood of any statement or supposed fact. Dr. Hawkins, who worked as a " healing psychiatrist" during his long and distinguished career, uses theoretical concepts from particle physics, nonlinear dynamics, and chaos theory to support his study of human behavior. This is a fascinating work that will intrigue readers from all walks of life!

Building on the accumulated wisdom of applied kinesiology (diagnostic muscle-testing to determine the causes of allergies and ailments) and behavioral kinesiology (muscle-testing to determine emotional responses to stimuli), David R. Hawkins, M.D. has taken muscle-testing to the next level, in an effort to determine what makes people and systems strong, healthy, effective, and spiritually sound.

"The Map of Consciousness Explained is an essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields. Using muscle testing, Dr. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his New York Times Bestseller, Power vs. Force. In this book, readers will gain an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and evolve to higher levels of consciousness and energy"--

The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world's major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego's expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins' previous books, the reader's level of consciousness is advanced as a consequence of exposure to the information itself. This opens up avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention to facilitate the reader's own Enlightenment.

This is the second volume of a trilogy that began with Power vs. Force and will be completed in the year 2002 by the publication of the third volume entitled I: Reality and Subjectivity. The Eye of the I (which calibrates at 950) is more advanced than Power vs. Force (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

Reveals a breakthrough in documenting a new era of human knowledge. Only in the last decade has a science of Truth emerged that, for the first time in human history, enables the discernment of truth from falsehood. Presented are discoveries of an enormous amount of crucial and significant information of great importance to mankind. Truth and Reality, Dr. Hawkins states, have no secrets, and everything that exists now or in the past- even a thought- is identifiable and calibratable from the omnipresent field of Consciousness itself.

The sixth book in a progressive series by Dr. David R. Hawkins, this work finalizes and further clarifies the true nature and core of the condition termed Enlightenment. It is primarily an instruction manual for the serious spiritual devotee and reveals information only known by those who have transcended the ego to reach Divine Realization. This is the inner route from the self to the Self, and the descriptions of the progressive states are devoted to the reader's own illumination. This work will appeal to those who themselves are dedicated to the spiritual Reality of Truth as the direct pathway to God.

Describes a means to let go of the obstacles to Enlightenment and become free of negativity.

To truly heal is to "make whole" on all levels, in contrast to "treating" which is limited and short-sighted, as Hawkins has emphasized in his best-selling series of books on human consciousness. These holistic lectures were first presented to a variety of recovery organizations and clinicians from diverse backgrounds. The emphasis is on recovery in its fullest sense - mental, physical, psychological and spiritual. Hawkins draws from a diverse clinical background of over 50 years as a leader in the field.--
