~~Hotel Management System Project VB.NET~~

The Central objective of the Online Hotel Management System project is to provide the information about the hotel as well as online facility for booking rooms. In existing system (i.e. Manual System), person has to go to the Hotel for booking, enquiry etc or another option is telephone booking. But user can't get detailed information about the hotel the proposed web based system automates it easier for a person to sit at home and book rooms in a hotel.

beautifully written text is a "must-have" reference for every serious programmer's digital library. As modestly described by the authors in the Preface to the First Edition, this "is not an introductory programming manual; it assumes some familiarity with basic programming concepts like variables, assignment statements, loops, and functions. Nonetheless, a novice programmer should be able to read along and pick up the language, although access to a more knowledgeable colleague will help."

A guide to the practical
