More than any other introductory psychology textbook, the Hockenburys' brief book presents the discipline with a unique understanding of today's students--emphasizing its relevance and immediate impact on their lives. Without sacrificing science, the authors draw on personal experiences and anecdotes to illustrate essential concepts and important research direction. The "Fourth Edition" incorporates hundreds of new research studies throughout, with particular attention to areas of intensive current research and enduring student interest,

including neuroscience, lifespan development, memory, and gender and culture issues. Also new is the dramatically enhanced media and supplements package, offering more ways than ever to help students make the study of psychology a part of their world.

Sandra Hockenbury and new coauthor Susan Nolan's remarkable textbook is grounded in the belief that all kinds of students can develop a real understanding of psychology and lasting scientific literacy. The authors act on that belief by using relatable personal stories to communicate the concepts of psychological science (and the process of science itself), and by presenting important research in a clear not oversimplified way. Hockenbury and Nolan also take full advantage of online learning, creating activities in LaunchPad

that have students thinking about psychology as scientists do. New co-author, Susan Nolan of Seton Hall University was recently designated a Master Teacher by the Society for Teaching Psychology. She regularly gives talks about incorporating scientific literacy into the introductory course and across the psychology curriculum.

More than any other textbook, Don and Sandra Hockenbury's Psychology relates the science of psychology to the lives of the wide range of students taking the introductory course. Now Psychology returns in a remarkable new edition that shows just how well-attuned the Hockenburys are to the needs of today's students and instructors.

ways to fulfill its enduring mission: to provide an accessible introduction to psychology that will connect the course to students lives without oversimplifying the fields research foundations. Again anchored by the Hockenburys personal storytelling approach, the rigorously updated new edition offers a wealth of new material and features (including a three-dimensional model brain that can be bound with each textbook) and a dramatically expanded media/supplements package. DSM 5 Updates Available for Fall 2014 classes, this update version features new content from Sandra Hockenbury in response to the release of the DSM-5. This new content is integrated into the text without changing pagination or the structure of the chapters. A special DSM 5 Supplement by Sandra Hockenbury is available for Fall 2013 and Spring and Summer 2014 courses

More than any other psychology textbook, Don and Sandra Hockenbury's

Psychology relates the science of psychology to the lives of the wide range of students taking the introductory course. Now Psychology returns in a remarkable new edition that shows just how well-attuned the Hockenburys are to the needs of today's students and instructors.

Psychology began with a basic idea: combine scientific authority with a narrative that engages students and relates to their lives. From decades of experience teaching, the Hockenburys created a book filled with cutting-edge science and real-life stories that draw students of all kinds into the course.

This acclaimed classroom favourite makes

the science of psychology come alive for students, with personal stories that exemplify important concepts in a student-friendly way and coverage of the field's scientific foundations and advances. The substantially updated new edition extends the book's focus on developing scientific literacy in the context of psychology, with new features in print and in the book's new online course space, LaunchPad. These features are the result of the book's most dramatic addition—Sandra Hockenbury's new writing partnership with co-author, Susan Nolan, who shares her belief that the introductory course can help all kinds of students develop a real understanding of psychology and lasting scientific literacy without sacrificing the field's research core. The book can also be purchased with the breakthrough online resource, LaunchPad, which offers innovative media content, curated and

organised for easy assignability.

LaunchPad's intuitive interface presents quizzing, flashcards, animations and much more to make learning actively engaging.

"This book is designed to help students organize their thinking about psychology at a conceptual level. The focus on behaviour and empiricism has produced a text that is better organized, has fewer chapters, and is somewhat shorter than many of the leading books. The beginning of each section includes learning objectives; throughout the body of each section are key terms in bold followed by their definitions in italics; key takeaways, and exercises and critical thinking activities end each section"--BCcampus website.
