Reconstructing Urban

and local government finance. More specifically, it is a branch of microeconomics that studies urban spatial structure and the location of households and firms. Much urban economic analysis relies on a particular model of urban spatial structure, the monocentric city model pioneered in the 1960s by William Alonso

Urban economics - Wikipedia

He has recently published *Reconstructing Urban Economics: Towards a Political Economy of the Built Environment* (Zed Books, 2016) The shift of world populations into cities and the increasing concentration of activities in urban areas have generated new debates about cities as well as rejuvenating old
