Religious intolerance and discrimination exist on a worldwide scale. Conflict between church and state or other conflict occurs in the Middle East and in Northern Ireland and Cyprus. Competition and rivalry between religions also accounts for conflict. Islam and Christianity are competing for converts in parts of black Africa.

susceptible to being a latent source of conflict. All religions have their accepted dogma, or articles of belief, that followers must accept without question. This can lead to inflexibility and intolerance in the face of other beliefs.

~~Religion and Conflict | Beyond Intractability~~

Ignorance often leads to fear, fear can lead to hate, and hate can lead to violence. Knowledge is the key to avoid going down this path. Conflict between people of different religions may begin with simple ignorance. People who do not really know anything about other religions just assume the others are very different.

Religion plays a minor but significant role in the ongoing conflict in Syria. A United Nations report released in late 2012 said that the conflict was becoming "overtly sectarian" in some parts of the country, with Syria's various religious communities finding themselves on the opposite sides of the fight between the government of President Bashar al-Assad and Syria's fractured opposition.

Investigation
conflict is the role of elites in exacerbating tensions along identity lines by giving the ideological justification, moral reasoning, and call to violence. Between Terror and Tolerance examines the varied roles of religious leaders in societies deeply divided by ethnic, racial, or religious conflict. The chapters in this book explore cases when religious leaders have justified or catalyzed violence along identity lines, and other instances when religious elites have played a critical role in easing tensions or even laying the foundation for peace and reconciliation. This volume features thematic chapters on the linkages between religion, nationalism, and intolerance, transnational intra-faith conflict in the Shi'a-Sunni divide, and country case studies of societal divisions or conflicts in Egypt, Israel

and Palestine, Kashmir, Lebanon, Nigeria, Northern Ireland, Sri Lanka, Sudan, and Tajikistan. The concluding chapter explores the findings and their implications for policies and programs of international non-governmental organizations that seek to encourage and enhance the capacity of religious leaders to play a constructive role in conflict resolution.

This wide-ranging collection explores the issue of tolerance during the period of the Crusades through the treatment of prisoners, the ransom of captives, and the problems faced by many groups. One of the central issues revolves around the attitudes of the participants. There were significant differences between Latin and Eastern Christians as well as between Christians and Muslims and among

Read Free Religion Intolerance And Conflict A

Christians, Muslims, and Jews. But, too, an exaggerated emphasis on the religious roots of intolerance has oversimplified the ways in which ideas of tolerance developed. The essays explore these relationships in their complexity in order to penetrate those generalizations that have often distorted more than enlightened. Tolerance and intolerance therefore are terms that can obscure as much as enlighten. What the reader discovers in this collection is that these attitudes play an important role in the shaping of international relations. Cross-cultural cooperation was not rare—not entirely surprising given the diversity of groups involved.

The author identifies the fear behind intolerant reactions and drawing inspiration from philosophy, history,

Read Free Religion Intolerance And Conflict A

and literature, she suggests a route toward a more equitable, imaginative and free society.

Collects essays from fifteen prominent thinkers analyzing how sacred texts from different religions support religious tolerance.

How are justifications for religious violence developed and do they differ from secular justifications for violence? Can liberal societies tolerate potentially violent religious groups? Can those who accept religious justifications for violence be dissuaded from acting violently? Including six in-depth contemporary case studies, *The Justification of Religious Violence* is the first book to examine the logical structure of justifications of religious violence. The first book

An intimate cross-country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth-grade field trip. The class was visiting a mosque to learn about world religions when a handful of boys, unnoticed by their teachers, joined the line of worshippers and acted out the motions of the Muslim call to prayer. A video of the prayer went viral with the title "Wellesley, Massachusetts Public School Students Learn to Pray to Allah." Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren. Wellesley school officials defended the course, but also acknowledged the delicate dance

Read Free Religion Intolerance And Conflict A

teachers must perform when dealing with religion in the classroom. Courts long ago banned public school teachers from preaching of any kind. But the question remains: How much should schools teach about the world's religions? Answering that question in recent decades has pitted schools against their communities. Veteran education journalist Linda K. Wertheimer spent months with that class, and traveled to other communities around the nation, listening to voices on all sides of the controversy, including those of clergy, teachers, children, and parents who are Muslim, Jewish, Christian, Sikh, or atheist. In Lumberton, Texas, nearly a hundred people filled a school-board meeting to protest a teacher's dress-up exercise that allowed freshman girls to try on a burka as part of a

Lesson on Islam. In Wichita, Kansas, a Messianic Jewish family's opposition to a bulletin-board display about Islam in an elementary school led to such upheaval that the school had to hire extra security. Across the country, parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths. But in Modesto, a city in the heart of California's Bible Belt, teachers have avoided problems since 2000, when the school system began requiring all high school freshmen to take a world religions course. Students receive comprehensive lessons on the three major world religions, as well as on Sikhism, Hinduism, Buddhism, and often Shintoism, Taoism, and Confucianism. One Pentecostal Christian girl, terrified by "idols,"

Read Free Religion Intolerance And Conflict A

including a six-inch gold Buddha, learned to be comfortable with other students' beliefs. Wertheimer's fascinating investigation, which includes a return to her rural Ohio school, which once ran weekly Christian Bible classes, reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans.

American narratives often celebrate the nation's rich heritage of religious freedom. There is, however, a less told and often ignored part of the story: the ways that intolerance and cultures of hate have manifested themselves within American religious history and culture. In the first ever documentary survey of religious intolerance from the

Read Free Religion Intolerance And Conflict A

colonial era to the present, volume editors John Corrigan and Lynn S. Neal define religious intolerance and explore its history and manifestations, including hate speech, discrimination, incarceration, expulsion, and violence. Organized thematically, the volume combines the editors' discussion with more than 150 striking primary texts and pictures that document intolerance toward a variety of religious traditions. Moving from anti-Catholic Ku Klux Klan propaganda to mob attacks on Mormons, the lynching of Leo Frank, the kidnapping of "cult" members, and many other episodes, the volume concludes with a chapter addressing the changing face of religious intolerance in the twenty-first century, with examples of how the problem continues to this day.

Read Free Religion Intolerance And Conflict A

In many ways, religion was the United States' first prejudice—both an early source of bigotry and the object of the first sustained efforts to limit its effects. Spanning more than two centuries across colonial British America and the United States, *The First Prejudice* offers a groundbreaking exploration of the early history of persecution and toleration. The twelve essays in this volume were composed by leading historians with an eye to the larger significance of religious tolerance and intolerance. Individual chapters examine the prosecution of religious crimes, the biblical sources of tolerance and intolerance, the British imperial context of toleration, the bounds of Native American spiritual independence, the nuances of anti-Semitism and anti-Catholicism, the resilience of African American faiths,

Read Free Religion Intolerance And Conflict A

and the challenges confronted by skeptics and freethinkers. The First Prejudice presents a revealing portrait of the rhetoric, regulations, and customs that shaped the relationships between people of different faiths in seventeenth- and eighteenth-century America. It relates changes in law and language to the lived experience of religious conflict and religious cooperation, highlighting the crucial ways in which they molded U.S. culture and politics. By incorporating a broad range of groups and religious differences in its accounts of tolerance and intolerance, The First Prejudice opens a significant new vista on the understanding of America's long experience with diversity.

The story told in this book is a modern morality tale that addresses religious

intolerance epitomized by the conflict between Christianity and Islam. This conflict has been going on intermittently since the first crusade at the end of the 11th century, but has become uppermost in our minds ever since the tragic events of September 11, the subsequent wars in Afghanistan and Iraq, and the many terrorist attacks around the world. History is quite clear as to the bellicose aspects of both Christianity and Islam, and we may be experiencing a prolonged flare-up of strife between these arch-enemies. Against the background of these troubled times, the two characters in the story, a Muslim woman and a Christian man, take time out to explore the root cause of this millennium-old strife, and why they as children of the same Creator belong to belief systems

Read Free Religion Intolerance And Conflict A

that articulate worldviews, which are bitterly opposed to each other. They pledge, at least for their part, not to recycle this age-old bitterness that neither Christianity nor Islam seems to be capable of resolving. They explore the foundations of their respective belief systems, project themselves outside the Islamic and Christian boxes that they have been packaged in so as to see their lives more objectively, and conclude that they need to travel a different road if they are to contribute to building a world that is a fitting habitat for all of the Creators children.
