### *Go - Basic Rules - YouTube*

A key concept in the tactics of Go, though not part of the rules, is the classification of groups of stones into alive, dead or unsettled. At the end of the game, groups that cannot avoid being captured during normal play are removed as captures. These stones are dead. Groups can reach this state much earlier during play; a group of stones can ...

The rules of Go have seen some variation over time and from place to place. This article discusses those sets of rules broadly similar to the ones currently in use in East Asia. Even among these, there is a degree of variation. Notably, Chinese and Japanese rules differ in a number of aspects. The most significant of these are the scoring ...

### *Rules of Go - Wikipedia*

Traditionally, go is played with 181 black and 180 white go-ishi (flat, round pieces called stones) on a square wooden board (goban) checkered by 19 vertical lines and 19 horizontal lines to form 361 intersections; more recently, it has been played electronically on computers and on the Internet. Each player in turn (black moves first) places a stone on the point of intersection of any two lines, after which that stone cannot be moved.
