Goldberg has had a longtime passion for cars and motorcycles and has a collection of over two dozen vintage cars, from an all-original 1959 Chevrolet to a 2003 Ferrari Modena 360.

Discusses the history, types, and uses of motorcycles, and explores the different kinds of racing motorcycles and motorcycle races.

Describes the history and types of street motorcycles, and gives information on their uses, parts, safety, and clubs.

After leaping from a plane, a skydiver opens a pair of carbon fiber wings and shoots through the sky at 200 miles per hour, in perfect control. Down on the ground, an Olympic pole vaulter soars to a world record on a state-of-the-art pole. A runner, born without feet, runs on space-age artificial limbs at speeds almost as fast as Olympic winners. Meanwhile, a swimmer slices through the water in a bodysuit modeled after sharkskin and shaves vital seconds off her time. How have these athletes managed such amazing feats? The answer is sports technology. Learn how science helps athletes stay safer, perform better, and have more fun. Book jacket.

A collection of personal perspectives on Porsche, accompanies the first automotive design exhibition at the North Carolina Museum of Art.

Bicycling advocates envision a future in which bikes are a widespread daily form of transportation, but this reality is still far away. Will we ever witness a true "bike boom" in cities? What can we learn from past successes and failures to make cycling safer, easier, and more accessible? In *Bike Boom*, journalist Carlton Reid uses history to shine a spotlight on the present and demonstrates how bicycling has the potential to grow even further, if the right measures are put in place by the politicians and planners of today and tomorrow. He explores the benefits and challenges of cycling, the roles of infrastructure and advocacy, and what we can learn from cities that have successfully supported and encouraged bike booms. In this entertaining and thought-provoking book, Reid sets out to discover what we can learn from the history of bike "booms."

A new, comprehensive guide to motoring and transport museums offering a fresh conversation on their role and the portrayal of our motoring history. Written by a long-established motoring writer with wide experience of driving and the fettling of old cars all over the world. This new motor museum companion includes: British motoring and transport museums guide via descriptions and photographs. 90 British museums described. Comprehensive world motor museum listing: over 350 global museums cited. Out-takes from visits to selected overseas museums. Provides a glossary of old-car/motorcycle terms and types to assist the museum visitor and old car enthusiast. Discusses the museum culture and its new age. Visits to many museums by the author were self-funded: he paid his own way.
