These are notes for a course in precalculus, as it is taught at New York City College of Technology - CUNY (where it is o?ered under the course number MAT 1375). Our approach is calculator based. For this, we will use the currently standard TI-84 calculator, and in particular, many of the examples will be explained and solved with it.

The Pre-Calculus 3.0 works a little differently than the 2.0. The academic content is the same as always and includes over 150 hours of multimedia instruction! However, each course is now delivered online as a 12-month subscription (per student). This obviously means no more discs (and, importantly, no more need for expensive disc replacements).

MathTalk Videos. MathTalk Videos are fun, application-based videos showing students how the math they are learning applies to the real world. Filmed on location in New York City and Boston, these instructional videos have a sense of humor while demonstrating how everyday life is full of math applications and give the students context on why they should care about math.
