The church is Christ 's representative on earth. As that representative it needs to carry out the commands of God in unity so that it may be a collective witness to the world. The problems of ecumenism are discussed with the conclusion that the gospel of Jesus Christ cannot be watered down if the church is to be an effective witness.

The Church, Contours of Christian Theology S. by Edmund P ...

An explanation of the Church of England, established or state church in England and part of the worldwide Anglican Communion; its structure, history and current issues.

At a time in which the very word church sounds a tone of dull irrelevance, the doctrine of the church has suffered the studied neglect of many Christian leaders. The persistent demands to market, manage and grow the church and to meet the felt needs of churched and unchurched all threaten to quench theological reflection on the abiding nature and mission of the church. But few activities bear greater promise as a starting point for renewing and reshaping the Christian church than the work of theology. In this book Edmund Clowney takes up that task, addressing along the way a variety of contemporary concerns: worship, mission, church and culture, church and state, church order and discipline, the ministry of women, baptism and the Lord's Supper, tongues and prophecy, signs and wonders. He draws on decades of thinking and teaching about the church as well as from his committed leadership and ministry within the church. Biblical, historical, systematic and Reformed, The Church is a timely and provocative reflection on the life, order and purpose of the household of God.

Dallas Seminary Professors Make Basic Theology Accessible for All Theology doesn't have to be complicated. In this book, trusted Dallas Seminary professors present a concise systematic theology that distills the essential spiritual truths in a way that makes sense to readers--students, lay people, and pastors. Here are introductions, overviews, and reviews of key tenets of orthodox protestant evangelical doctrines. The book also includes an annotated list of key applicable Bible texts, a quick-paced story of doctrine throughout church history, heresies or distortions to be aware of, and more. Exploring Christian Theology is useful for discipleship, catechism, membership training, preview or review of doctrine, or quick personal reference. It can also be used by ministry training programs, Bible colleges, or seminaries as an introductory primer to orient students in preparation for a more in-depth study of theology.

Paul Helm introduces the doctrine of divine providence--focusing on metaphysical and moral aspects and especially noting divine control, providence and evil, and the role of prayer. In the Contours of Christian Theology.

Churches have split and denominations have formed over the issue of church government. While many Christians can explain their church's form of rule or defend it because of its "tried and true" traditions, few people understand their church's administrative customs from a biblical perspective. Who Runs the Church? explores questions such as: What model for governing the church does the Bible provide, and is such a model given for practical or spiritual reasons? Is there room for different methods within Christianity? Or is there a right way of "doing church"? And, finally, how (and by whom) should the church be governed? Four predominant approaches to church government are presented by respected proponents: Episcopalianism - represented by Peter Toon Presbyterianism - represented by L. Roy Taylor Single-Elder Congregationalism - represented by Paige Patterson Plural-Elder Congregationalism - represented by Samuel E. Waldron As in other Counterpoints books, each view is followed by critiques from the other contributors, and its advocate then responds.

This volume offers much-needed theological reflection on the phenomenon of conversion and transformation. Gordon Smith provides a robust evaluation that covers the broad range of thinking about conversion across Christian traditions and addresses global contexts. Smith contends that both in the church and in discussions about contemporary mission, the language of conversion inherited from revivalism is inadequate in helping to navigate the questions that shape how we do church, how we approach faith formation, how evangelism is integrated into congregational life, and how we witness to the faith in non-Christian environments. We must rethink the nature of the church in light of how people actually come to faith in Christ. After drawing on ancient and pre-revivalist wisdom on conversion, Smith delineates the contours of conversion and Christian initiation for today's church. He concludes by discussing the art of spiritual autobiography and what it means to be a congregation.

Donald Macleod reinforces the church's historic doctrine of the person of Christ as a centerpiece for theological reflection. In the Contours of Christian Theology.

Peter Jensen examines the role of the Bible in divine revelation, beginning from biblical categories of the knowledge of God and the gospel. In the Contours of Christian Theology.

Debates over race, gender, ethnicity, culture, social status, life-style, and sexual preference cloud our notions of universal "human nature" or "human condition." Charles Sherlock offers a timely and engaging look at what it means to be human—created in the image of God and re-created in the image of Christ.
