The Demon in the Freezer. The first major bioterror event in the United States—the anthrax attacks in October 2001—was a clarion call for scientists who work with “hot” agents to find ways of protecting civilian populations against biological weapons. In The Demon in the Freezer, his first nonfiction book since The Hot Zone, a #1 New York Times bestseller, Richard Preston takes us into the heart of Usamriid, the United States Army Medical Research Institute of Infectious Diseases at ...

The Demon in the Freezer - Richard Preston

The Demon (In the Freezer) is smallpox, a disease far, far more scary than the others. Historically, smallpox has probably killed far more humans than any other disease, except perhaps for the "disease" that we have in our insatiable desire to kill each other.

The Demon in the Freezer: Amazon.co.uk: Preston, Richard ...

The Demon in the Freezer is a 2002 non-fiction book (ISBN 0345466632) on the biological weapon agents smallpox and anthrax and how the American government develops defensive measures against them. It was written by journalist Richard Preston , also author of the best-selling book The Hot Zone (1994), about ebolavirus outbreaks in Africa and Reston, Virginia and the U.S. government's response to them.
