Learn the Real Techniques to Close the Sale Every Time using Principles of Psychology and Persuasion What makes people buy something? Humans have been trying to answer this one question for centuries. The truth is that while sales may be about math, the process of selling something relies heavily on psychology and understanding human behavior. You've probably already heard of countless "magic techniques" that are supposed to make people buy whatever you're selling, as if you had a magic wand in your hand. I'm sorry, there's nothing like that. However... After decades of research, science has identified certain responses and behaviors that are hard-wired into our brains and that can actually help you close the sale every single time. If you want to learn the real techniques to sell (the ones based on psychology that actually work) this book is for you. In this guide you won't find magic wands. Instead, you'll discover the principles of persuasion and consumer psychology, you'll learn working selling strategies and negotiating techniques designed to help you sell more and delight your customers after the sale. This guide will give you a series of actionable steps you can follow, from understanding your prospects to answering their objections effectively and ultimately getting the sale. Whether you are a sales professional, a business owner who wants to increase revenue, or someone looking to build a successful sales system, this book will help you. Inside The Psychology of Selling and Persuasion, discover: The real techniques to close the sale every time (without using magic wands) The 4 most common objections you'll receive and how to reply in the right way What makes people buy and how to leverage this knowledge to sell more 4 ways to craft your sales presentations so that people want to buy from you How to set and reach your sales goals using a powerful planning method Why if you want to sell effectively you shouldn't be selling (and what you should be doing instead) The #1 framework to handle customer's objections and reply effectively An example of a highly effective sales script (from the first contact to after the sale) 7 principles of persuasion you can use to craft a great sales pitch and close the deal Why closing the sale isn't actually the end of the sales process (many people don't know this) A step-by-step method to build sales scripts that work You can apply these techniques even if you've never sold anything before. WALL STREET JOURNAL BESTSELLER! IF YOU'RE IN SALES, FEAR HAS COST YOU MILLIONS OF DOLLARS, AND THIS BOOK IS FOR YOU. Fear is the reason most salespeople don't like to pick up the phone (salespeople average just four hours per week on the phone, and our job is to talk to humans!). Fear is the reason we don't ask for the business more, even though our customers want to buy from us. Fear is the reason we don't offer our customers additional products and services, even though they would love to buy more from us. This book deals with that fear. You will learn exactly how to overcome this destructive fear in sales, and replace it with confidence, optimism, gratitude, joy, and proactive sales work. These are the powerful principles in the new field of positive psychology which are transforming how we work and succeed. Selling Boldly is the first book that leverages positive psychology to help you sell more. You'll also learn a series of fast, simple sales-growth techniques—like how to add on to existing orders; and how to close 20% more quotes and proposals instantly; and how to properly ask for and receive referrals—that will grow your sales...dramatically and quickly. Alex Goldfayn's clients grow their sales by 10-20% annually, every year, as long as they apply his simple approaches. YOU ALREADY KNOW WHAT TO DO I am not going to teach you much in this book that you don't already know. You're a professional salesperson. You do this for a living. You know, for example, that testimonials and referrals are among the best ways we have to grow sales, right? But do you ask for them enough? Most people don't. You know that calling a customer on the phone is more effective than emailing her, but you still often revert to email. You know your customers buy other products and services that you can help them with, but you don't ask them about these products. You'd like to help them, and they would like more of your help — that is why they've been with you for five or ten or twenty years — but nevertheless we don't ask them. There is a difference between knowing what to do, and actually doing it. I know you know. With Selling Boldly, we start to do what we already know. We will cover what keeps us from doing these things (fear), how to overcome it (by listening to your happy customers), and how to implement these simple but powerful sales growth techniques (by briefly planning them, also doing them). Because sales growth comes from doing, not knowing. Today, we start doing. And growing. These approaches are laid out in this book, in precise detail, for you to implement in your own work. Alex doesn't hold anything back in this manual for selling more. What's the secret to selling more? There is no secret. There is no magic bullet. There is only the work. There are only the mindsets, and the communications. In Selling Boldly, Alex teaches readers how to attain these mindsets, and how to implement these communications, so that sales have no choice but to grow!
