Ken Wilber is known as one of the founders of "integral psychology" which refers to an attempt to formulate a theory of the psyche that incorporates ideas from both psychology and spirituality. Perhaps Wilber's most well-known model of human development, or "spectrum of consciousness" is rather simple, based as it is on three different levels: pre-personal, personal, and transpersonal.

The Stages of Life According to Ken Wilber | Thomas ...

In The Spectrum of Consciousness, Ken Wilber extolled Krishnamurti as the incredible man whose discourses had been compared by Aldous Huxley to those of the Buddha. More realistically, Krishnamurti led thousands of people to believe that there was no "path," producing a breed of "eternal now" enthusiast.

KEN WILBER, UP FROM EDEN - citizenphilosophy.net

Yogis and mystics have written about it since time immemorial, and more recently also western psychoanalysts and psychologists like Carl Jung and Ken Wilbur 1. What do we learn from this literature? It tells us there is a vast spectrum of consciousness in a human being, spanning the subconscious mind through consciousness and all the way to the superconscious realm, most of which we don't understand.
