But what really makes humans human is basically the massive post-natal development of the outer layers of the brain, the cerebral cortex.

Why Love Matters: How Affection Shapes a Baby's Brain

Why Love Matters is a very read-able and accessible foray into the world of attachment between a baby and their caregiver. Gerhardt uses scientific evidence to illustrate the importance of a loving bond but does so in a way that is easy to follow. I believe that this book is useful for practitioners but also invaluable for parents.

Why Love Matters : Sue Gerhardt : 9780415870535

One of the least egregious ones that deserves a lot more spotlight than it gets is the battle for Public Displays of Affection, commonly known as PDAs. I am about to lose a couple of readers so in theory I should get into why this matters. Instead of that, I would first like to point out how we lost it because this is a crucial part of the ...
